## EDUCATION

### Galvanize Full Stack Development Bootcamp

Apr. 2015 - Oct. 2015

- Created full stack web applications using MongoDB, Express, AngularJS, and NodeJS
- Continuously learning and writing JavaScript, HTML, CSS, Angular, Express, Node, MongoDB, along with other languages, libraries, APIs, and frameworks
- Worked with multiple teams to solve programming problems and create web applications

### University of Colorado at Boulder

B.A. Journalism 2012

Creative Advertising Concentration and an Emphasis in Economics

## EMPLOYMENT

### Codecademy, Codecademy Coach - multiple roles, Remote, NY

Apr. 2016 - Current

Curriculum Quality Associate:

- Responsible for triaging and resolving curriculum bugs to reduce the load of weekly and historical bugs
- Help the Curriculum team audit and review courses
- Review 250+ learner submitted bug reports per week and submit/triage relevant reports
- Write and edit platform tests using mocha/chai, custom python helpers via unittest, etc

Content Contributor:

- Work with Learner Operations team to identify opportunities or problems to address with new programming content
- Produce, maintain, and iterate upon supplemental learning content, including article, video, quiz, and FAQ content, to be consumed by Codecademy learners

Advisor, Remotely chat with students to:

- Review coding topics one-on-one via text or video chat
- Guide students to additional resources available to deepen learning capacity
- Help students debug code and pass exercises
- Help define student goals
- Motivate and encourage students
- Work with other advisors to support and track student progress

Slack Moderator ( two cohorts of 270+ students):

- Respond to technical and administrative questions, provide relevant resources for learning, and encourage conversation within Slack channel for Codecademy Pro Intensive Build Websites from Scratch course

Project Reviewer:

- Review individual student HTML/CSS/JS projects to provide actionable feedback for student

### Winter Group Inc, Junior Graphic Designer, Aurora, CO

Feb. 2015 - Mar. 2015

- Edited and produced branded collateral and advertisements including web, print, and packaging for multiple education based clients under mentorship from the Creative Director and Senior Designers.
- Worked with multiple project managers to stay ahead of deadlines, keep designs within branding guidelines, and on track with client wants/needs

### StudioC3, Freelance Designer, Denver, CO

Oct. 2014 - Apr. 2015

- Worked with Account Services Manager to produce branded collateral including Word and PowerPoint documents, Facebook header, Save the Date email, and registration email
- Developed and produced holiday email for JA Worldwide email blasts

## SKILLS

**DEVELOPMENT:** JavaScript, HTML, CSS, React, jQuery, Sass, Redux, React hooks, Firebase realtime database, Firebase Auth

**TOOLS:** Git, Github, npm, Bootstrap, JIRA, Mocha, Chai, Jest, Enzyme, WordPress

**TECHNIQUES:** Responsive Design, API Integration, Pair Programming

## PROJECTS

### Advanced Urgent Care and Occupational Medicine

Oct. 2020 - Feb. 2020

I worked with AUC's marketing team to refresh the company's website including the web design and functionality. The site was refreshed using WordPress with the Divi theme. Additionally, I implemented custom HTML/CSS/JS and a chat box using the vendor of their choice.
